

## **Fees, funding and scholarship information**

At the University of Sussex, we want each one of our students to feel in control of their finances and comfortable with their obligations to us. Below, you'll find all the information you need on the costs of your course, how you need to pay and the support that's available to you.

### **How much does the course cost?**

The total tuition fee for our International Marketing MSc (online) is £15,504.

### **What is covered in the tuition fees?**

The tuition fees cover the cost of registration, teaching and assessments, all reading materials and access to a range of the university's facilities such as the library. There are no mandatory travel or accommodation costs to consider when you are studying online.

### **When are payments due?**

You will need to pay an instalment of £1,292, the fee for the first module, before you enrol onto the course. There are twelve modules in total meaning that there will be twelve modular instalments. Each module lasts seven weeks with a short break in between; so you can expect to pay an instalment roughly once every two months.

### **How are payments made?**

Payments are made via our online shop. Your Student Success Advisor will send you links to the online shop prior to commencement of each module. Payments can be made via debit/credit card or Paypal. If you are unable to pay using these methods, you will need to contact the University's finance department so that alternative arrangements can be made.

### **What scholarships are available?**

Scholarships are awarded on the strength of applications. There are two scholarships available that range from £2,000-£2,500. Exceptional candidates may be offered both scholarships which combined would equal £4,500. This is a 30% reduction of the overall course fee.

### **When will I know if I've been awarded a scholarship?**

Scholarships of £2,000 are offered to students when they are offered a place on the course. The additional scholarship of £2,500 is awarded once your first cohort has been established.

### **When does the scholarship come into effect?**

The scholarship amount will be taken from your **final modules** of the course.
