Corruption and Governance MA (online)
Course overview

The Corruption and Governance MA (online) provides a distinct approach to the study of corruption and anti-corruption. Approaching the subject from a broad interdisciplinary perspective, you’ll focus on three fundamental questions: what is corruption, what causes it and what should be done to combat it?

Drawing on expertise from the renowned Sussex Centre for the Study of Corruption, questions are addressed using diverse disciplinary perspectives including law, anthropology, economics, development studies, sociology and political science. Through this multi-disciplinary approach, you’ll develop the skills to look at the wider complexities, causes and effects of corruption and anti-corruption solutions.

You’ll build both the theoretical knowledge and practical skills required to understand the complexities of defining, measuring and counteracting corruption within a multitude of sectors and from a global perspective. You’ll focus on relevant case-studies, discussing the issue of corruption and exploring potential solutions in the context in which they exist.

COURSE START DATES
There are six start dates every academic year, providing maximum flexibility for our students;

- January
- March
- May
- July
- September
- November

FEES
Course fee: £11,450
Cost per module: £955

Fees are charged on a module by module basis. For more information on fees, funding and scholarships available to students studying this course, please visit study-online.sussex.ac.uk/corruption-governance
WHY CHOOSE THIS COURSE?

Gain an understanding of both the theoretical and practical complexities of defining, measuring and fighting corruption.

Learn from an interdisciplinary approach to the study of corruption, drawing on academic perspectives from a range of theoretical and applied perspectives.

Critically examine and challenge proscribed structures and policies for fighting corruption.

Gain the skills and confidence to pursue a career in a wide range of settings including business, government, consultancies, NGOs, media, journalism, and academia.

Tailor your Masters to your interests by choosing case studies relevant to your current or future career.

Learn through interactive teaching giving you the opportunity to fully engage with the classes and collaborate with your fellow students.

Study at a time and place that suits you, without taking away from your career or personal commitments.
